BULKY KNIT SWEATER TOPS ALL FOR FALL

So important and so new—so unmistakably Italian—is the Continental look! Sweaters of all types and shapes to form that new mold. Flat knit and smooth or bulky and fluffy—are the two major imported looks in fall sweaters.

The novelty sweater with distinctive styling detail has never been so well designed. Men's wear influence is seen in sports shirt collars, cable stitching, V-necked cardigans, turtle, mock turtle and crew necklines are prominent.

And because you choose your sweaters as carefully as you choose your cosmetics, you want people to remember how wonderful you looked, not simply what you wore. You choose a sweater for many reasons—shape, striking in its simplicity and fit, so good it improves your figure.

Choose one that can be worn with your sheath or fashion-full skirts. And by all means choose one that will fit your playtoys.

I chose one from Renee, located on El Prado ave., using the bulky sweater in a three-piece ensemble—shaped and dyed to match by our own Junior Miss of California. This shape is known as being 'simple' but actually, it's a matter of perfectly placed lines.

It can be worn for playtime, or just relaxing evenings by the fireside.

The ever becoming-popular bulky sweater, comes with a turtle-neck, cardigan in style, with roll or push up sleeves. Sizes: small, medium and large.

The jersey blouse comes with stove-pipe neck, bow-tie and el-

bow length sleeves. Comes also in a V-ribbed neckline with push-up sleeves. Sizes run from 7-15. The sleek, slim Capris are made of pure Botany wool flannel. Back zipped, tapered ankles and stitched pleated fronts. Sizes: 1-15 junior.

Comes in color hues tuned to fall-Autumn Leaf Green, Wood-rose Chestnut Brown and in deep, misty Royal Blue.

If you have any fashion problems or if you would like to know where to find certain styles that you are looking for, call or write to the Torrance Press, 1406 Cravens ave., FA. 8-2345, attention Norma Mattauch, women's editor.)

Ford Trucks prove their dependability
on the biggest construction job since the Panama Canal!

Not in 42 years has the world seen such a massing of construction men and machines. They're clearing the way to the heart of a continent—in the mighty St. Lawrence Power and Seaway project.

The going's rugged and the completion date allows no delay. That's why you find dependable Ford trucks everywhere.

How those Fords can take it! It's a proven fact Ford trucks outlast every other leading make! And their day-in, day-out dependability is a major reason why Ford trucks cost less. It also means more work output.

Ford's first cost is low. The gas and oil economy of modern Short Stroke engines keeps running costs low. And longer-lived Ford trucks bring top dollar on resale. To get lower truck costs all around, take a tip from America's biggest truck users—the men who know truck costs best.
